

## Recycle, Reuse, Reduce

Did you know that Wheelock School collects printer cartridges and cell phones for recycling? We recycle all the cartridges we use at the school through a company called Funding Factory. We earn points for each cartridge and cell phone. These points are then used to purchase new technology equipment.

You can help with this fundraiser. Just collect any used printer cartridges or cell phone from your home or business, put them in a plastic bag (to prevent the ink from leaking) and bring them to the Library Media Center (LMC). Sorry, we cannot take refurbished cartridges.

This is a wonderful way to help your school and the environment at the same time.

Thanks for your help!
